Global Culture of HPA
Mar 14 2017
It is my goal this year to interview the international students, learn about where they are from, and learn about the traits they bring with them. I want to know how each different culture attributes to the global culture of HPA.
PowerSchool Learning

*Formally Haiku*

Learning Management System where parents access student's assignments and grades.
Family Access Module (Parent Information Center)

Parents access Grade Reports, Schedules, Absences and Demerits

Directory and Household

- Parents can determine what information is published in the School Directory tab in the Household tab.
Aloha!

Welcome to HPA's Parent and Student Information Center (also known as the Family Access Module, or FAM). Here you can access grades, class schedules, and attendance information. Parents also can change their address/contact information and view their child's citizenship marks by clicking the "Household" button on the left.

The HPA Family Directory is provided for personal use only. Commercial/business use is prohibited.

If you have any questions, please contact Lihau Wengler-Ioane, (grades 9-12) at 808-881-4002 (e-mail: lwengler-ioane@hpa.edu@hpa.edu), or Lynn Kakugawa (grades K-8) at 808-885-2501 (e-mail: lkakugawa@hpa.edu).

Assessments and Placement Tests for New Students, 8-11:15 am, Tuesday, August 15, Upper Campus

Class Retreats, 8:30 am-3 pm, Wednesday, August 16
Payments

Tuition Management Systems (TMS)

Parents can manage tuition payments and can add money to student’s account for the on campus school store.
Payments to HPA

Hawai'i Preparatory Academy offers a number of convenient payment options for families. Please review the list of payment options below and choose the one that best fits your needs:

**Tuition Management Systems (TMS)***

TMS administers billing and processes payments for families with multi-payment tuition plans. Please log in to your account, or create an account with TMS to begin.

**Tuition Payments Directly to Hawaii Prep**

This option may be used by families or others making one-time tuition payments directly to HPA.

- No log-in is required.
- A student ID is helpful but not required.
- Major credit cards accepted; a convenience fee will be charged.
- Electronic check or wire transfer accepted.

**Student Bank and Other Payments**

Please use this option for your enrollment deposit, summer session, and all other payments to HPA, including deposits to your child's student bank account for allowance and bookstore purchases.

- No log-in is required.
- A student ID is helpful but not required.
- Major credit cards accepted; a convenience fee will be charged.
- Electronic check or wire transfer accepted.
Tuition Management Systems (TMS) - Login

Student Account Center

Paying for your education is made easy for students and families. Student Account Center provides a way to view statements and make payments for a payment plan or one-time payments.

Payment Plans

Payment plans are the sensible approach to paying education expenses. They allow for smaller, affordable payments instead of paying your balance in one large lump sum.

Payment Plan Accounts

Please login to manage an existing account.

Important Information

Attention Hawaii Preparatory Academy families, you will no longer be able to login and view your payment plan account with your old login credentials. Please use your Student Account Center login to view your child’s account and payment plan.

BYOD (Bring Your Own Device)

BYOD requires students to bring their personal laptops or hybrid laptops from home and use them for education applications in the classroom.

The web page lays out device requirements, expectations, and other information.
Website - Academics - Bring Your Own Device

Energy Lab
Collaborate with astronauts at the world's finest telescopes, grow taro in the terrace gardens, or design your own study to monitor humpback whales off the Kohala coast. The Energy Lab is your base for exploring our world.

Upper School
Whether it’s creative writing or robotics, the beauty of HPA is that you can be the architect of your own experience. Let us nurture your passion.

Bring Your Own Device

In 2013, HPA established an Educational Technology Committee to explore current best practices in schools with regard to how, when, and why students use devices to enhance their learning. Based on their extensive research, HPA has become a Bring Your Own Device (BYOD) school for grades 6-12.

To ensure a successful rollout of the BYOD program HPA adopted several platforms to support the move to a 1:1 device learning environment. Haiku (Power School) Learning, a learning management system (LMS). Allows our teacher to create courses accessible online for students to access through their BYO Device. Google Suite for Education allows students to create and collaborate with others. We have also taken other necessary action to ensure the BYOD Program is successful. Our teachers have been participating in professional development, we have expanded our digital bandwidth and improved our wireless infrastructure at both campuses to support student connectivity. We have also hired a full-time K-8 educational technologist to support our teachers and students in their implementation of technology within the learning environment.

Here is what you need to know to ensure your child is ready for BYOD this fall:

What is BYOD?

Bring Your Own Device (BYOD) requires students to bring their personal laptops or hybrid laptops from home and use them for education applications in the classroom.
User Minimum Expectations

Before the first day of school, students should be able to use their device to get on their Internet browser and access the Haiku (Power School) Learning management system (LMS) or Google App Suite. They should also know how to take screenshots, photos, and videos on their device. The device should be fully charged at the beginning of each school day, and it is recommended, that the power cord be available if needed during the school day.

Software

Devices that meet the specific device requirements in the table below will function with HPA’s essential educational and communication software systems. In some cases, students will need to spend a small amount of money on software, though we recommend the use of free software/apps (Gmail, Google Drive, Haiku (Power School) LMS, etc.) and open-source software when possible.

Support

We strongly recommend that students purchase an extended warranty for their device at the time of purchase. Students can bring their device to the HPA Information Technology Department (IT) for initial diagnosis in the event of malfunction. If the problem can be easily fixed within 15 minutes, the IT staff will do so. If not, students will be provided with a loaner device for no longer than two weeks and the student/family are responsible for the repair or replacement of the device. If the student is a boarder, IT will get his or her computer repaired after receiving parental permission to do so. Just like textbooks, notebooks, and other tools for learning, the student owns and is ultimately responsible for the upkeep and usefulness of the device.
